

Fingerprint Pages

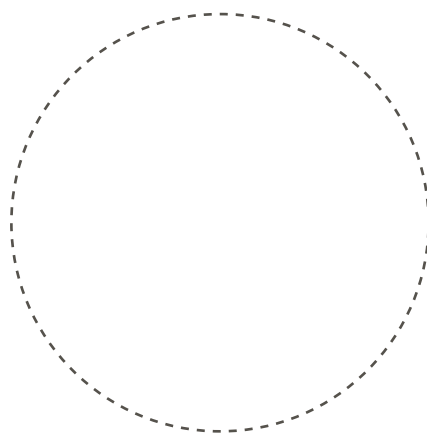

Roll a thumb on a stamp pad, or dab a little paint, and press it down here. No two prints in this whole family will match, not even close.

"I praise you, for I am fearfully and wonderfully made."

Look Closer

Every fingerprint falls into a few families of pattern. See which kind you left behind on page one.

LOOP

Lines that curve in, then flow back out the way they came. Most people have this kind.

WHORL

Lines that circle around a center point, like a tiny pond after a raindrop.

ARCH

Lines that rise in the middle like a small hill, with no circle and no backward curve.

SOMETHING TO TALK ABOUT

Nobody else who has ever lived has your exact print. What is something about you that nobody else has either?
